

REMARKS

Claims 1-8 are pending in this application. Claim 1 is amended. Claims 9-14 are withdrawn.

On pages 3-4, the Office Action rejects claims 1-8 under 35 U.S.C. §112, second paragraph. The Office Action specifies an antecedent basis issue in claim 1. Claim 1 is amended to overcome the issue raised by the Office Action.

It is respectfully submitted that claim 1 satisfies the requirements of 35 U.S.C. §112, second paragraph. Therefore, it is respectfully requested that the rejection of claims 1-8 under 35 U.S.C. §112, second paragraph, be withdrawn.

On pages 4-6, the Office Action rejects claims 1-8 under 35 U.S.C. §102(b) as being anticipated by U.S. Patent Publication No. 2002/0096994 to Iwafuchi et al. (hereinafter "Iwafuchi"). This rejection is respectfully traversed.

Paragraph [0047] of the specification describes that the transferred chip includes a plurality of thin film transistors, and controls independently the respective color pixels 1, 2, 3 included in one pixel. Claim 1 is amended to include this subject matter.

In contradistinction, Iwafuchi does not disclose (or teach or suggest) a drive circuit to drive individually the respective color pixels included in one pixel.

Claims 2-8 are allowable at least on their dependency from claim 1 for the reasons stated above in connection with claim 1.

For at least the foregoing reasons, it is respectfully requested that the rejections of claims 1-8 as being anticipated by Iwafuchi be withdrawn.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance of claims 1-8 are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

James A. Oliff
